Phillip G. Bradford

Goal: manipulate a-sky images, learn about CORS for non-Glitch A-frame

Exercise

- 1. Get a free / public domain image IMAGE above Seattle
- 2. Update over-Seattle.html so src=IMAGE
 - a. <a-sky src=IMAGE> </a-sky>
- 3. Open over-Seattle.html directly from the browser
 - a. What happens?
- 4. https://en.wikipedia.org/wiki/VR_photography
- 5. https://commons.wikimedia.org/wiki/File:Rainbow on the Azores %E2%80%93 360%C2%B0 drone shot.jpg
- 6. How to fix? A proxy to avoid CORS
- 7. Debug...
